SIMPLE SHAPE BINGO 1

Print all Simple Shape Bingo sheets, plus one extra. Each player gets a different bingo board. Cut all the squares out of the extra bingo sheet to use as cards for the bingo "caller". Place these cards in a hat or box. When the caller pulls a card out of the hat or box, players who have the card's image on their boards color that image. The caller may also color the cards that are pulled. The first player to color all squares in a row (up & down, side to side, or diagonally) wins.
